Pronouns are either separate or attached.

The separate pronouns, also called detached pronouns, are independent and are not attached to any other word.

The attached pronouns are not independent, but are always attached to other words.

In the beginning of our studies we will learn the basic forms. As we progress we will learn them in greater details in book III. 

The pronouns are (fixed), i.e., they are not declinable. They remain stationary in one FORM.

But they do have one fixed form when they are and another fixed form when they are or.

For and there is only one form for attached pronouns which we will study here.

* this is known as — Ya of the first person
